RIDE COMMAND™ adds a new dimension to snowmobile and off-road riding, by offering a world of connection at your fingertips.

A Newsletter to RIDE COMMAND Clubs & Trail Managers Issue No. 22 - January 2020

New App Features Help You Organize Club Rides, Create & Share Events

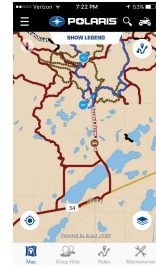

Ride Command Mobile App Version 6.3.0 has features now being used by snowmobile and ATV clubs across the country. As a Ride Command Trail Manager, you can put the new app to work for your club. Update the app on your digital device and you'll be able to:

POLARIS RIDECOMMAND

Page 2

- 1) Create events for future club rides, with all the details: event name, date and time, location on the Ride Command trails map, plus a link to your club's Facebook page to share it with your members.
- 2) Add your event to the Nearby Events list, so other riders in your area can see it and learn more about your club.
- 3) See events listed near or far by other snowmobile and ATV clubs.
- 4) Use the new "Collections" feature to group your tracks, waypoints and planned rides, and share it all as a collection with others.

Add all this to to Group Ride, Report Riding Conditions, Snow Depth, fund-raising Points of Interest, Food Fuel and Lodging, Ride Areas, and Dealers, and you have everything you need to maximize your rides, connect with all your members, and invite other riders to join your club.

Minnesota United Snowmobile Association (MnUSA) Uses Ride Command To Track 10 Groups During Veterans Appreciation Ride

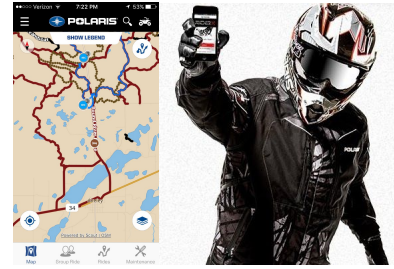

On January 11, 2020, 150 snowmobilers gathered in Two Harbors, Minnesota, for the 12th Annual Veterans Appreciation Ride. After a hearty breakfast, everyone geared up, broke into 10 groups, and enjoyed a ride on scenic, groomed trails along the North Shore of Lake Superior. MnUSA board members monitored the groups using the Ride Command Group Ride feature. That allowed them to see if any group had to stop along the pre-planned route for any reason, providing their exact location in case they needed assistance. “For a group ride of this size, it really helped us a lot,” said Jerry Hanson with MnUSA. “It worked perfectly.”
